BATHING/GROOMING

The only way we can ensure that your pet is clean at discharge is to bath them. We highly recommend a bath before your pet goes home. If your pet is found to have fleas or ticks upon arrival a medicated bath will be performed and billed to you. We keep a flea and tick free environment and this is a necessary step to keep our hospital pest free. If your pet becomes excessively dirty while staying with us they will be bathed for sanitary reasons at your expense. Bathing and grooming include a toe nail trim and ear cleaning.
